Alberta Official Statistics

Average Weekly Earnings (including overtime), Alberta

- The average weekly earnings[1] are derived by dividing total weekly earnings for the month by the number of employees.
- In March 2017, average weekly earnings for Albertans increased by 0.8% from the previous month to $1,117.59.
- Between March 2016 and March 2017, Alberta saw a 0.8% decrease in its average weekly earnings, whereas Canada overall posted an increase of 0.9%. Newfoundland and Labrador led all provinces with a year-over-year rate of 2.9%, followed by Saskatchewan (+2.6%), Manitoba (+2.4%), British Columbia (+1.9%), Quebec (+1.7%), Ontario (+1.3%), Prince Edward Island (+0.9%), New Brunswick (-0.2%) and Nova Scotia (-0.8%).

1 The data are seasonally adjusted. Estimates are 'preliminary' for the most current month and 'revised' for the previous month.
